25th January 2016

Dear Parents and Carers

Science Week 14th March - 18th March

Science week is approaching and this year we will be investigating the subject of 'FLIGHT'. We are looking for 'science experts' to come into school and share their knowledge of anything flight related with the children. This could include kite fliers, balloonists, astronauts, space experts, pilots, parachutists, bird handlers or anything else that you can think of.

If you have any of the above talents, we would be very grateful and the children would be super excited to listen or watch your talents during this week (14th-18th March).

Please ring the office to let them know or email us at:

jessica.brown@fairlands.herts.sch.uk

or

kim.ferguson@fairlands.herts.sch.uk

We are excited to hear from you!

Many thanks

Jessie Brown and Kim Ferguson
Science Coordinators
