

S FACTOR DAY

On Friday 5th January, Fairlands' will be having an S Factor day.

For your child's homework, we ask that you choose an experiment to do at home with your child. This could be any experiment! From lava lamps to rainbow skittles, it's your choice! Please bring enough resources to do your experiment up to three times on 5th January. Please dress your child up as a scientist. Science is all around us from a surgeon to an astronaut, so please encourage your child to really think about this career. Please ensure that your experiments are safe i.e. no fire etc. If you are unsure, please contact your class teacher.

Children will then show their class their science experiment. The class will vote for the best one! There will be a fabulous panel of S Factor judges to judge the best experiments in the school!

The winners of each year group will then be presented their prize at Nobel School!

All experiments must be brought in on:

Friday 5th January 2018
