

S-FACTOR DAY !

On Friday 28th February, Fairlands will be holding an S-Factor Day.

For your child's homework, we ask that you choose an experiment to do at home with your child. This could be any experiment, from lava lamps to rainbow skittles! It is your choice! Your child will then need to bring enough resources into school to do this experiment up to three times.

This is an opportunity for your child to be dressed up as a scientist for the day. Scientists are all around us, from surgeons to astronauts, so it would be lovely to encourage your child to really think about this career.

Please ensure that your experiments are safe, for example, no flames or chemicals! If you are unsure, please contact your child's class teacher.

Firstly, children will show their class their science experiment and their class will then vote for the best one!

Then, there will be a fabulous panel of S-Factor judges to judge the best experiments in each year group and the overall school winner!

Finally, the winners of each year group will then be presented their prizes at Nobel School!

All experiments must be brought in on:

Friday 28th February
