Stevenage  
Hertfordshire  
SG1 3JA

11<sup>th</sup> March 2010

Dear Parents / Carers

### SCIENCE AND ENGINEERING WEEK 2010

Next week is the National Science and Engineering week and Fairlands has lots of fantastic activities planned to celebrate this. The theme this year will be '**Earth**'. This includes everything from the Earth's amazing wildlife and people to its place in the Universe and how it works. Each year group will be looking at a different Habitat and then sharing their findings with the rest of the school and with you.

The activities will include:

**Crazy Creature Competition.** The children will design and create their own creature and explain the habitat it lives in.

**Endanger Rangers.** The children will produce an information poster highlighting the plight of an endangered creature.

**Fly me to the Moon.** The school has been lucky enough to secure the loan of a high powered telescope for the week and will be using this to study the moon during the day.

**Habitat Hike.** Each year group will find out facts and information about a different habitat and then create a quiz for the other children to answer about their Habitat.

### HOW YOU CAN BE INVOLVED.

Parents and carers are invited to join the children on the Habitat Hike on **Friday 19<sup>th</sup> March** at 3.30pm and find out all about the work the children have been doing throughout the week

On **Tuesday 16<sup>th</sup> March** from 6.00 - 7.30pm we will be using the telescope to do some star gazing in the night sky. Parents and children are invited to join us and share in this fantastic opportunity. Places are limited and will be given on a first come first serve basis.

Thank you for your support.

---

My Child: \_\_\_\_\_ Class: \_\_\_\_\_

Would like to attend the stargazing session on Tuesday 16<sup>th</sup> March from 6-7.30pm

Signed \_\_\_\_\_
