Dear Parents/Carers

Re: Sex and Relationships Education

After half term we will be re-introducing Sex and Relationships Education throughout the school. The programme is rooted in the science and PHSE curricula and is delivered in a developmental manner throughout the time children are at Fairlands.

A central part of the programme is a series of videos "Living and Growing".

The videos include information about changes that take place in children's bodies as they grow and how to be prepared for these. They also include information about how babies are made and born. The videos also explore relationships.

The videos form only part of the programme. Teaching staff, and sometimes the School Nurse, will lead discussions following the viewings.

We would like to invite all parents/ carers to view samples of the materials and to feedback their views to us. To this end a meeting has been arranged for **Wednesday 8th June at 2.30** in the Upper Building Hall. After the viewing, there will be an opportunity for discussion, and a feedback form will be provided.

If you can attend the viewing, I would be grateful if you could complete and return the slip below, indicating the number of adults.

If you have any concerns, please feel free to come in and discuss the matter with me.

Robert Staples
